FIRE RESISTANT FILING CABINETS

The sleek, lightweight construction and flexible housing of our two fire resistant filing cabinets would make a safe and stylish addition to any office. Most importantly, each component is treated with Insulite for complete insulation, making them both durable and fire resistant for an hour in temperatures up to 1000°C. Among its many features are a rugged suspension system, recessed handles, movable hanging frames to accommodate all file sizes, inner steel drawer jackets to prevent access from unlocked compartments and individually insulated drawers to prevent the spread of fire should a drawer be left open.

DOCUMENT SECURITY

Premium paper protection

Our document boxes are suitable for keeping files and documents secure. Finished in neutral colours to complement any office environment. The Snatch Proof security boxes come with a robust carrying handle and are fitted with a cylinder lock that secures the lid and locks the box on to a base plate.

UNDERFLOOR SAFES

The hidden security solution.

The Securikey range of underfloor safes provides practical hidden security in the office or in the home. Engineered to comply with European Standards and to meet insurance company requirements, they offer a high standard of security at affordable prices.

The Protector range of safes are ideal for larger items and offer a higher level of security with interlocking bolts controlled by a key or keyless combination, anti-drill features, and on ABP models protection against thermal attack. Available in five sizes, there is also a choice of three types of interchangeable door.

Designed for use in the home, the Housesafe range of underfloor safes are an economic way of protecting cash, valuables, vital documents and items of sentimental value. Available in three sizes, they are secured with a high-quality safe lock.

The Strongbox Extra is easy to fit between the joists of any suspended floor. Flock lined to prevent damage to contents, this safe is fitted with a VdS class 1 approved safe lock and supplied with fixing bolts – the ideal DIY floorboard safe.

¹ All models

FIRE VAULT

The Fire Vault provides excellent protection for documents. Withstanding temperatures of up to 950°C for an hour. Like most Securikey products, it is independently tested and comes complete with a 10-key hook bar, a shelf and drawer, an electronic digital keypad that has two user codes and external battery access. With a door that opens greater than 200° full access is assured. All models accommodate paper up to A4 in size, are fitted with a master override feature via the registration card and can be supplied with a non-invasive fixing plate.

DATA VAULT

Computer data can be destroyed at temperatures of just 55°C or humidity above 85%, so a simple tea or coffee spill could strip your business of vital information. Available in three sizes, our range of free-standing fire-resistant safes offer a high degree of protection for all types of media by blocking heat, smoke, dust and steam through anti-fire seals around the door. Models 1 and 2 can also be supplied with a fixing base plate to prevent removal and depending on size, can accommodate one or two shelves and space for up to 111 cased CDs.

EURO VAULT

Utilizing the same build quality as our Mini Vault range but aimed at the customer who wishes to integrate their safe with house or business security arrangements, the Euro Vault accepts a euro profile half cylinder and so will operate using your high security entrance door key etc. Perfect for any situation where cost and flexibility are paramount.

Euro Vault

EURO VAULT – ELECTRONIC

This safe will take a laptop, cash drawer or ledger and uses a motorised lock with keypad. This lock has a single use code similar to those popular in hotels. This feature means that once open the code used to lock overrides all existing codes. Perfect for hot desking or heavy traffic applications. A management override key and master code ensures entry at all times.

Hardened Steel Bolts

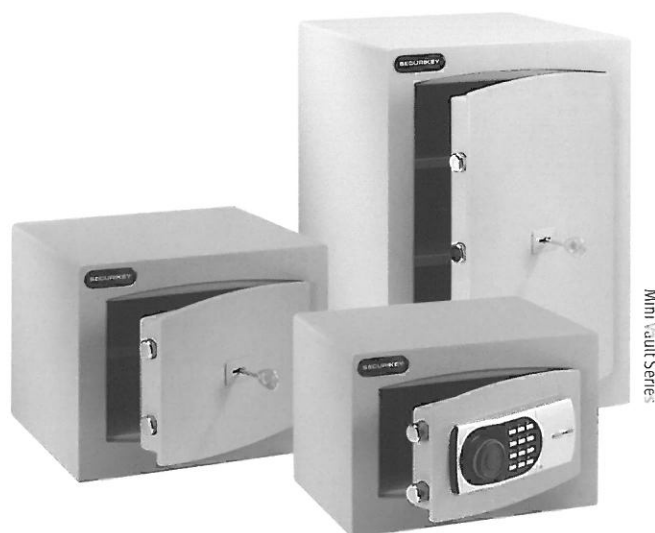

Euro Profile Cylinder

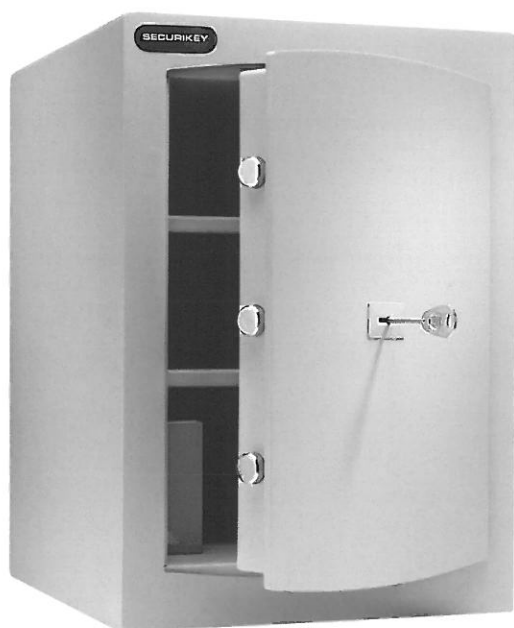

MINI VAULT

Manufactured with a 4mm body, an 8mm anti-bludgeon flush fit door and 25mm locking bolts, the Mini Vault is ideal for the safekeeping of documents, valuables and cash. It is available in three sizes with the choice of a key or electronic locking mechanism. The electronic option offers two changeable codes, override facility and an LED battery indicator. All versions have an internal key hook bar, flush-fit door with concealed hinges and bottom and back fixing options, perfect for securing inside suitable furniture.

Mini Vault Series

Mini Vault 2 FR

MINI VAULT FR

The Mini Vault FR's double-wall construction (4mm outer wall and 2mm inner skin) with fire resistant filling conforms to S2 standard and also offers fire protection for 30 minutes at temperatures of up to 750°C. Manufactured with a 6mm body, an 8mm anti-bludgeon flush fit door and 25mm locking bolts, the Mini Vault FR is ideal for the safekeeping of documents, valuables, cash and laptop computers in hotel rooms, at home or in the office.

It is available in three sizes with the choice of a key or electronic locking mechanism. The electronic option offers two changeable codes, override facility and an LED battery indicator. All versions have an internal key hook bar, flush-fit door with concealed hinges and bottom and back fixing options, perfect for securing inside suitable furniture.

EURO GRADE 1 SINGLE KEY LOCK

The Euro Grade 1 safe is available in six different models from 69 to 770 litres, each complete with 40mm solid steel sliding bolts on all four sides, a single security key lock, base fixing point and a fire-resistant seal on the door which can be opened a full 210° to enable total access. There is a choice of three locking options and a variety of fittings available including shelves which are adjustable to every 25mm, a lockable compartment, a metal door pocket and a rotary or tube deposit. Certified according to EN 1143-1 Security Grade I.

EURO GRADE 4 DUAL LOCKING (KEY/MECHANICAL COMBINATION)

Fitted with 40mm steel sliding bolts to all four sides, the Euro Grade 4 safe provides optimum protection in any environment. Available in nine sizes, ranging from 82 to 771 litres, all models can be secured to the floor. The door can be opened to an angle of 205° and is fitted with a fire-resistant seal, with provision for a base fixing that is covered by a snap-on cover. It also has a number of fittings including shelving adjustable to every 25mm and an alarm connection. Certified according to EN 1143-1 Security Grade IV.

ADDITIONAL FITTINGS AVAILABLE

Inner compartment • Shelf • Deposit tube or drum

EURO GRADE 5 DUAL LOCKING (KEY/MECHANICAL COMBINATION)

The ultimate in cash safes, the Euro Grade 5 is fitted with 40mm steel sliding bolts to two sides. The door can be opened to 210° and is fitted with a fire resistant seal. There are 6 models ranging from 96 to 771 litres each available with a choice of combination and electronic locking options. An alarm connection and shelves adjustable to every 25mm are also included. All models have provision for base fixing which is covered by a snap on cover. Certified according to EN 1143-1 Security Grade V.

ADDITIONAL FITTINGS AVAILABLE

Inner compartment • Shelf • Deposit tube or drum
